

Uncompromising comfort for patient transport

motionLine

- Ergonomic push handles with secure, formed rubber grips
- Flexible, height-adjustable neck support pillow enhances patient relaxation

- Organic Tilting: Newly developed, ergonomic seat angle prevents slipping and chafing
- Sturdy chassis design supports patients weighing up to 135kg/300lbs

- Integrated storage basket for patient medical records and belongings

- Foldaway armrests increase patient safety and provide entry and exit assistance
- Premium upholstery is comfortable, easy to clean and meets the highest standards for hygiene and disease prevention

- Chair back and seat are easily adjusted by a footswitch operated pneumatic spring
- Effortless, accurate maneuvering with just a single staff member

- Two large front end wheels combined with two smaller rear double-wheel casters provide outstanding handling characteristics
- Manual brakes on the rear casters hold the chair securely in place

Flexible, adaptable and sturdy - the backrest moves together with the footrest as the chair is reclined to a recumbent position.

Ergonomic vertical adjustment of the chair back eliminates unnecessary sliding and rubbing. The patient can easily and comfortably lean back while experiencing complete lumbar support.

NEW: stylish colors available for the motionLine

Ergonomically formed, durable, non-sliding rubber grips.

The motionLine design concept was inspired by the idea that no compromise should be made when providing comfort for patients after a long day of surgery at a hospital or long-term care facility. Designed with our unique "Organic-Tilt" technology, every component of the chair, from the headrest to footrest, moves naturally and fluidly together as the chair is reclined. Unnecessary sliding and rubbing are eliminated, resulting in exceptional comfort.

Organic Tilting

Automatic lengthwise adjustment for supportive, relaxing transport

- *Lightweight chassis design enables excellent maneuverability*
- *Comfortable, height adjustable neck support pillow*
- *Ergonomically formed back-upholstery with lumbar support*
- *Wide and stable support surface for outstanding comfort when fully reclined*
- *High-quality sewn upholstery*
- *Large, sturdy wheels for easy straight driving*
- *Additional attachment for I.V. pole (optional)*

motionLine is capable of being adjusted to the shock position.
