TREATMENT CHAIR

E

ENJOY QUALITY AND DESIGN

eyeForce

Item No.: 1800 0000

Our most innovative & modern patient positioning system with auto-run functions - specialized for precision surgery in head area. With *e-drive* easy-push aid, Steering Guide and SES automated extension system - for even more ergonomics & economy at your workplace.

**Trendsetting comfort
and supreme quality**

MED.TEC at its highest level

Double castors

Four fully rotating double-run castors for back-friendly and easy rolling motion.

Chassis

Precision lightweight chassis made of cast aluminum.

Frame

Lasercut procedure. Highly stable stainless steel frames. Including standard rails 25 x 10 mm for the attachment of a wide range of accessories.

Precise positioning of the head part

Headrest

3D and longitudinally adjustable headrest element with head molding and neck support for guaranteed safe and correct positioning of the head.

Accessories

Headrest with ball joint and more

Discover additional features and extensive accessories on page 22-23.

Item No.: 3351 1020

NEW

Sterile adjustment by surgeon / maximum legroom

Tiltable foot control

Tiltable foot control via two 4-way joysticks plus activation switch allow sensitive and precise chair adjustment even after the surgeon is already steril. Pushing the pedal lip (by foot) will activate the electronic control and battery mode of the equipment.

PREMIUM
LINE

Positioning

The *eyeForce* treatment chair is adapted for patient positioning and ergonomic and comfortable patient treatment, in particular for outpatient surgical techniques, and offers versatile adjustment of the head, back, seat and leg sections and overall chair height for patient transport.

- Five freely configurable memory positions
- Reset button
- Auto run function and
- Battery charge indicator

Hand control

Activate memory function / automatic movement

It is possible to save 5 MEMO positions: Set the desired position (hold down the MEMO key until the orange LED lights up). Then press the numeric key of a memory location for a MEMO position - the MEMO position is now saved.

Press and hold "AUTO" until the LED lights orange, then briefly tap on either 1, 2, 3, 4 or 5 to move to the desired position of the surgical bed.

All castors are braked (red)

Positioning by hand control

Standard recommended memo keys

"Steering Guide" maneuvering aid

Operation via push handles and hand keypad

The **eyeForce** treatment chair offers an electronically controlled braking system with "Steering Guide" function. In addition to "free movement" and "brake applied" the treatment chair offers directional guidance as an additional electronic wheel positioning function. This additional function facilitates the controlled maneuvering of the chair by just one person and can be activated from both sides of the chair via the chair handles or optionally via the manual keypad.

Directional guidance is activated (orange)

Directional guidance is deactivated (green)

Pushing from the head direction

Pushing from the foot direction

Surface-Extensions-System "SES" positioning aid

Automated solution for patient positioning

Both the backrest and the legrest segments automatically move 50 mm along with the patient when moving the chair into the reclined or entry position. The "SES" avoids patient repositioning, which would otherwise be necessary, by extending and flexing the individual segments. Returning the leg segment to the entry position reduces the entry height by an additional 50 mm.

Movement in reclining position

without „SES“

with „SES“

Movement in entry position

without „SES“

with „SES“

Retractable push handles

Manually adjustable push handles on the foot end with automatic return function, for easy patient transfer.

eyeForce + e-drive

Item No. : 1800 0000 + 3316 0000

Powerful yet gentle.

e-drive system for effortless and rapid movement of the chair over long distances. The new optional system consists of a 5th wheel with drive motor. It serves as a pushing aid for easy forward and backward movement – with an extra range of 2 kilometers per battery charge. The system's operation is identical to that of the "Steering Guide" system, via the respective push handles with potentiometer for infinite and precise speed adjustment. It is possible to integrate the system any time at a later date.

WE-DRIVE YOUR OR!

The electronic push-aid

Control over push handles

Push handle at the left head/foot end with a rocker switch for moving the treatment chair forward and back.

Push handle at the right head/foot end with a potentiometer for speed control.

Low-noise movement/trackless movement

By switching on the fifth electronically drive wheel in the chassis of the chair, the physical labor of the person doing the pushing is noticeably reduced.

- Shock-free transport
- Long-lived design
- Optimum floor contact
- Long range

The ease of pushing - How much force is needed to move 200 kg? - Zero.

Who would have thought this is possible?

This is how far your staff pushes a load of 300 kilograms per year: approximately 70 meters per surgery round; 1,000 surgeries per year; up to 700 kilometers per year.

More than 1,000 **eyeForce** with **e-drive** are already in use in eye clinics all over the world: up to 700,000 kilometers per year!

Push handles 2.0 - perfect interaction - top-of-the line mobility and ergonomics.

NEW

More legroom in the operating theater! Space-saving. Fold-down handles on the head end.

Solid, ergonomically shaped handles at optimized pushing height.

Technical specifications

Chassis

- Outside length 900 mm
- Outside width 662 mm
- Brake system acting on all four castors
- Directionally guided steering ("Steering Guide"), easily activated at the push of a button
- Castor diameter, electr. conductive $\varnothing 150 / 100$ mm
- Foot control element with joystick (total, head, back, Trendelenburg up / down)
- Emergency stop button
- Optional push-aid (*e-drive*)
- With equipotential bonding connection
- Abrasion-resistant corner guards (orange) made of synthetic rubber

Trendelenburg / Reverse Trendelenburg

Upper frame

- 4-part support frame (head, back, seat, leg part)
- Removable upholstery 40 mm
- Width of upholstery 650 mm
- Standard stainless steel side rails on both sides 25 x 10 mm
- Width incl. norm rails 700 mm
- Length 1.780 - 1.900 mm

	Angle	Dimensions (L x w)
- Head part	-31° / +22°	255 x 245 mm
- Back part	0° / +75°	540 x 650 mm
- Seat part	-5° / +26°	450 x 650 mm
- Leg part	0° / +78°	510 x 610 mm
- Height adjustment		640 - 900 mm
- Trendelenburg	-26° / +6°	
- Entry height		580 mm
- Legroom		470 - 730 mm

Back / Leg part

Electrical control

Manual keypad

- Memory controller with 10 buttons for head, back, seat, leg part – total up / down; 2 buttons for directionally guided steering, 1 button for electronic brake, 1 easy entry button, memory button, on-off button, auto-run function
- 5 freely programmable memory positions
- Visual battery level indicator

Foot control element

- Foot control element 2 joysticks plus activation switch
- Optional push-aid (*e-drive*)

Electric drives

- Head, back, seat, leg part, total up / down
- Trendelenburg / Reverse Trendelenburg
