ENJOY QUALITY AND DESIGN

surgiForce light

Item No.: 2600 0006 with Comfort seat
Item No.: 2600 0009 with Formed seat (Illustration)

surgiForce light – extraordinary technology and materials in typical **surgiForce** premium design, in combination with other control elements:

A clearly structured twin foot keypad plus manually operated gas spring mechanisms in the arm supports – for surgeons wishing to precision-adjust their arm position with minimum fuss.

MED.TEC at its highest level

Double castors

The five high-grade double castors are smooth-running and rotated by 360 degrees. This means no-limits mobility, especially in confined operating room spaces. **surgiForce's** central front castor in particular gives extra stability to keep the treating surgeons safely in place whenever they shift their bodyweight forward.

Chassis

The drive mechanism's base is made of cast aluminum. This means maximum stability and longevity and no-limits mobility. And the material and workmanship meet the strictest sanitary requirements.

Plastic cover panels

The mirror-finish plastic cover panels with their scratch-resistant and impact-modified surface finish are extremely hygienic and easy to disinfect.

Armrests with gas-spring mechanism

3D freedom of movement

High-precision, maintenance-free ball joint for full 360-degree range armrest movements around all axes. Ultra-lightweight guide system for fast, efficient and vibration-proof adjustment of individual underarm positions.

Need to readjust *surgiForce light* while maintaining sterile conditions? Not a problem! In addition to the foot keypad, *surgiForce light* features so-called "one-hand triggers" underneath the armrests.

Angled armrest support for increased freedom of armrest movement around the lateral axis.

Sterile height adjustment

The height of the armrests can be adjusted independently of the seat and independently of each other.

The gas spring mechanism is controlled manually with a rolling movement using the elbow and hand.

Rotate, tilt, swivel: The arm rests can be moved quickly and easily in three dimensions. The entire arm can also be turned to the side.

WITH PRODUCT UPGRADES

Arm supports offset to the rear (V-shaped traverse) for even better access to the operating field.

In comparison with the previous version until 2024 (blue figure).

A **lifting column shortened** by 30 mm for a lower entry and seat height for the surgeon.

PREMIUM LINE

Multi-function unit

Foot operated

Timeless foot keypad design for UP/DOWN seat height adjustment with non-slip polyamide touch surfaces. Easy-to-reach brake levers on either side of the driving mechanism for centralized braking/unfettered maneuvering.

Abrasion-resistant corner guards (orange) made of synthetic rubber take the stress out of maneuvering *surgiForce light* even at close quarters to other medical equipment.

Braking system

The easy-to-reach and easy-to-use central brake acts on all four double castors to keep the *surgiForce light* safely and reliably in the desired position.

Seating systems

Comfort

The Comfort seating system: with mechanical individual adjustment functions. An additional lumbar support as a backrest provides relief for the spine. Sliding carriage for adjusting the seat depth optionally available.

Seat angle adjustment

Back angle adjustment

Back height adjustment

Formed seat

The form seating system: With enlarged contact surface for more comfort and optimum weight distribution. The seat surface can be individually tilted forward and fixed together with the backrest. In addition, angle and height adjustment of the backrest ensure an ideal sitting posture.

Mains-free operation

Accumulators

The charger-battery-control unit integrated in the drive mechanism permits mains-free operation at protective low voltage. Splash-protected charging socket on the bottom of the drive mechanism.

Technical specifications

Lifting column

- Lifting height of the seat (electromotive adjustment via the foot control) 170 mm
- Lifting height of the armrests 135 mm

Dimensions maximum (LxWxH) incl. armrests

- with Comfort seat 825x700x1,125 mm
- with Formed seat 825x700x1,210 mm

Chassis

- Castors ø 100 mm
- 5th castors ø 65 mm
- Central brake acting on all four castors
- Emergency stop button

Battery unit

- Lead-gel battery, 2 pcs. 12 V, 2.9 A
- Universal battery charger: Input: 100 – 240 V
Output: 24 V

PREMIUM
LINE

“skai® Tundra”

High quality skai® material with fine calf leather grain and subdued matte-gloss-effect. The very extensive and trend-orientated color spectrum enables many applications and combinations.

Product Specification

- Long-lasting
- Tear resistant
- Easy to clean
- Abrasion resistant (DIN EN ISO 6570-2)
- Lightfast
- Disinfectant resistant
- Biocompatibility: cytotoxicity (EN ISO 10 993-5) and epicutaneous test (EN ISO 10 993-10)
- Blood- and urine resistant
- Phthalate-free
- Vegan
